SAIA 1013 RESPONSIBLE AI & ETHICS
Assignment Rubrics (5%) CLO1 PLO2 (C2)

	Criteria	Need Improvement (1%)	Satisfactory (2%)	Good (3%)	Excellent (4%)	Extraordinary (5%)	%
1	Depth of Knowledge	Minimal analysis; little understanding of module content	Basic analysis with limited coverage on module, ideas are underdeveloped or lack depth.	Good analysis and understanding of module with relevant connections; minor gaps in depth or insight.	Insightful analysis with sufficient understanding of module; close knowledge gap.	Thorough analysis with deep understanding of module; connections are well-developed and thoughtful.	5%
2	Relevance	Irrelevant or disconnected discussion; low to no module integration	Somewhat relevant discussion; lacks depth of knowledge; vague examples	Relevant discussion, but lack detail or insufficient example and knowledge depth.	Moderate relevant discussion, examples are somewhat specific but lack integrating module. Provide references but doubt on reliability	Highly relevant discussion, effectively integrating module, examples are specific. Provide references for sources and any GenAI tools used.	5%
3	Creativity and Originality	Recommendations are minimal, or lack relevance to module content.	Recommendations are basic, somewhat plagiarism or lack originality	Recommendations are thoughtful and practical but lack originality or less alignment with module	Recommendations are clearly inspired by module content and have originality value	Ideas and recommendations are highly innovative, and practical. Low plagiarism potential.	5%
